ACTION COMPOSITES TECHNOLOGY

BIO

Lupe's experience in the composites industry began in 1994 at West Coast Composites where he was involved with the material preparation and fabrication of 15-20k golfs shafts per day.

In 1998 he came on board at Reynolds Composites and has been a member of our team through all of our various mergers and transitions over the past 20 years.

Lupe is a master pattern fitter and molder of complex shapes. In 1998-1999 he was involved in the development of the Ouzo Pro fork and has molded tens of thousands of parts since then serving many diverse applications.

POSITION PRODUCTION SPECIALIST

EXP. 20+ YEARS OF EXPERIENCE IN COMPOSITE MANUFACTURING AND PROTOTYPING

CORE FUNCTIONS Production specialist, pattern fitting, molded part preparation, and application.
