

ACT

ACTION COMPOSITES TECHNOLOGY

POSITION QC TECHNICIAN

EXP. 20+ YEARS OF EXPERIENCE IN COMPOSITE MANUFACTURING

CORE FUNCTIONS QC technician, machines carbon parts, shipping/receiving tasks and assists with cutting and rolling

BIO

Javier's experience in the composites industry also began in 1994 at West Coast Composites where he was involved with the finishing of 15-20k golfs shafts per day.

Javier also came on board at Reynolds Composites in 1998 and has been a member of our team through all of our various mergers and transitions over the past 20 years.

Javier's true forte is finishing but he also serves as a QC technician, machines carbon parts, handles shipping/receiving tasks and helps out in the cutting, molding, and rolling areas when needed.
